

DJ Bobby Greel

With his warm personality, focus on customer service and seventeen years of event-industry experience, Robert has become one of the region's most popular DJs and emcees.

Both a musician and a DJ, Robert began his career as a wedding band "roadie" at 16, to a dance band drummer at 18, a DJ at 23, and a manager of his own DJ team at 25. As Director of DJs for the Spirit of Boston, he managed a team of seven DJs for seven years, providing music a wide range of corporate and private events from Sunday historical tours, to public evening cruises, to the all-out New Years Eve parties, catering to Boston's very diverse demographics.

As he continues to DJ for wonderful couples and clients every year, Robert continues to explore his interests across all fields. He has designed and built multiple "tiny houses," traveled cross-country, lived and worked in New Orleans, and is currently working for a Boston architect. Robert Greel is

exclusively represented by Music Management.
